Smallpox at Torre Annunziata.

Passed Assistant Surgeon McLaughlin reports, April 27, an outbreak of smallpox, with 11 cases and 4 deaths, at Torre Annunziata, a suburb of Naples. The infection was imported from Marseille. Two foci exist. Vaccination is being generally carried out, and care is exercised by the municipal authorities as regards the cleaning of the city, the sale of provisions, and the disinfection of sewers.

Week ended April 27, 1907: *Smallpox*—Palermo, 1; Torre Annunziata (Naples), 14; Giuncugnano (Massa), 2; Casalepusterlengo (Milan), 1.

JAPAN.

Report from Yokohama—Emigrants recommended for rejection.

Passed Assistant Surgeon Cumming reports:

Number of emigrants per steamship *Aki Maru*, sailing April 17, 1907, recommended for rejection: For Seattle, 35. Per steamship *China*, April 20, 1907: For Honolulu, 9; for San Francisco, 1. Of these rejections all but 1 were for trachoma.

Report from Nagasaki—Emigrants recommended for rejection.

Sanitary Inspector Bowie reports:

April 6, 1907. Number of emigrants per steamship *Siberia* recommended for rejection. 15. Per steamship *China*, April 14, 1907, 18.

NICARAGUA.

Reports from Bluefields, fruit port—Mosquitoes—Water containers not oiled or screened.

Acting Assistant Surgeon Layton reports as follows: Six days ended April 29, 1907. Present officially estimated population, 2,800; general sanitary condition of this port and the surrounding country during the week, good. Water famine continues.
